IDENTI-KIT 7

Introducing the most powerful and intuitive composite sketch software we have ever released. Identi-Kit 7 has been redesigned to make the creation of facial composites simpler and the results more effective.

- ◆ *Intuitive user interface and dynamic feature browser make the process of sketch creation better and faster.*
- ◆ *60% more facial features than previous versions. No need to purchase additional ethnic libraries.*
- ◆ *New tool suite added for greater control to customize sketch and achieve greater accuracy.*
- ◆ *Every feature has been remastered to a razor sharp, high definition. Facial composites are crystal clear.*
- ◆ *Export sketches to Microsoft Word to create customized bulletins for distribution fax, email or posting to the Internet and social media.*
- ◆ *Help videos on line show you how to get the most from the application. Or attend our live webinars for comprehensive training and certification.*
- ◆ *Access to our tech support that is always available, either by phone or email.*

TESTIMONIALS

"The program is very user friendly and the detectives had no problems navigating through the system. The composites produced looked authentic and professional."

*Sergeant,
Florida Police Department*
